A New York style roof top swimming pool offers the best views in JHB and the majority of the units are North-facing, overlooking the landscaped park. Park Central offers a complete lifestyle and is packed full of amenities including a gym, braai area, gourmet lounge and plenty of communal space.

Due to investor demand we have now created even better value units with 1 beds starting from R1.7 million and 2 beds from R2.7 million. Each unit has top-end finishes, integrated appliances, air-conditioning, basement parking and storage. We are offering flexible payment plans enabling you to pay your deposit in instalments to accommodate your needs.

Park Central – the most iconic building in Johannesburg

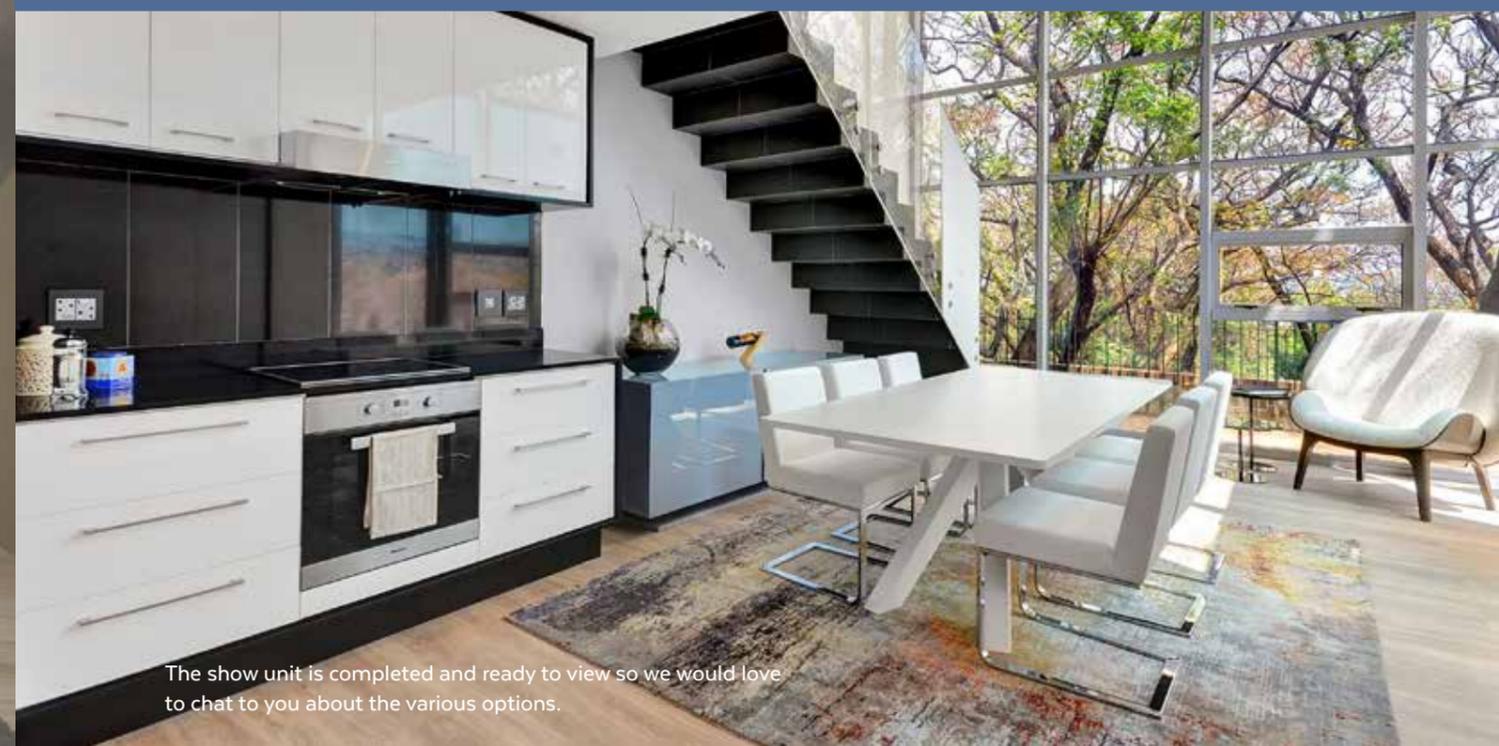

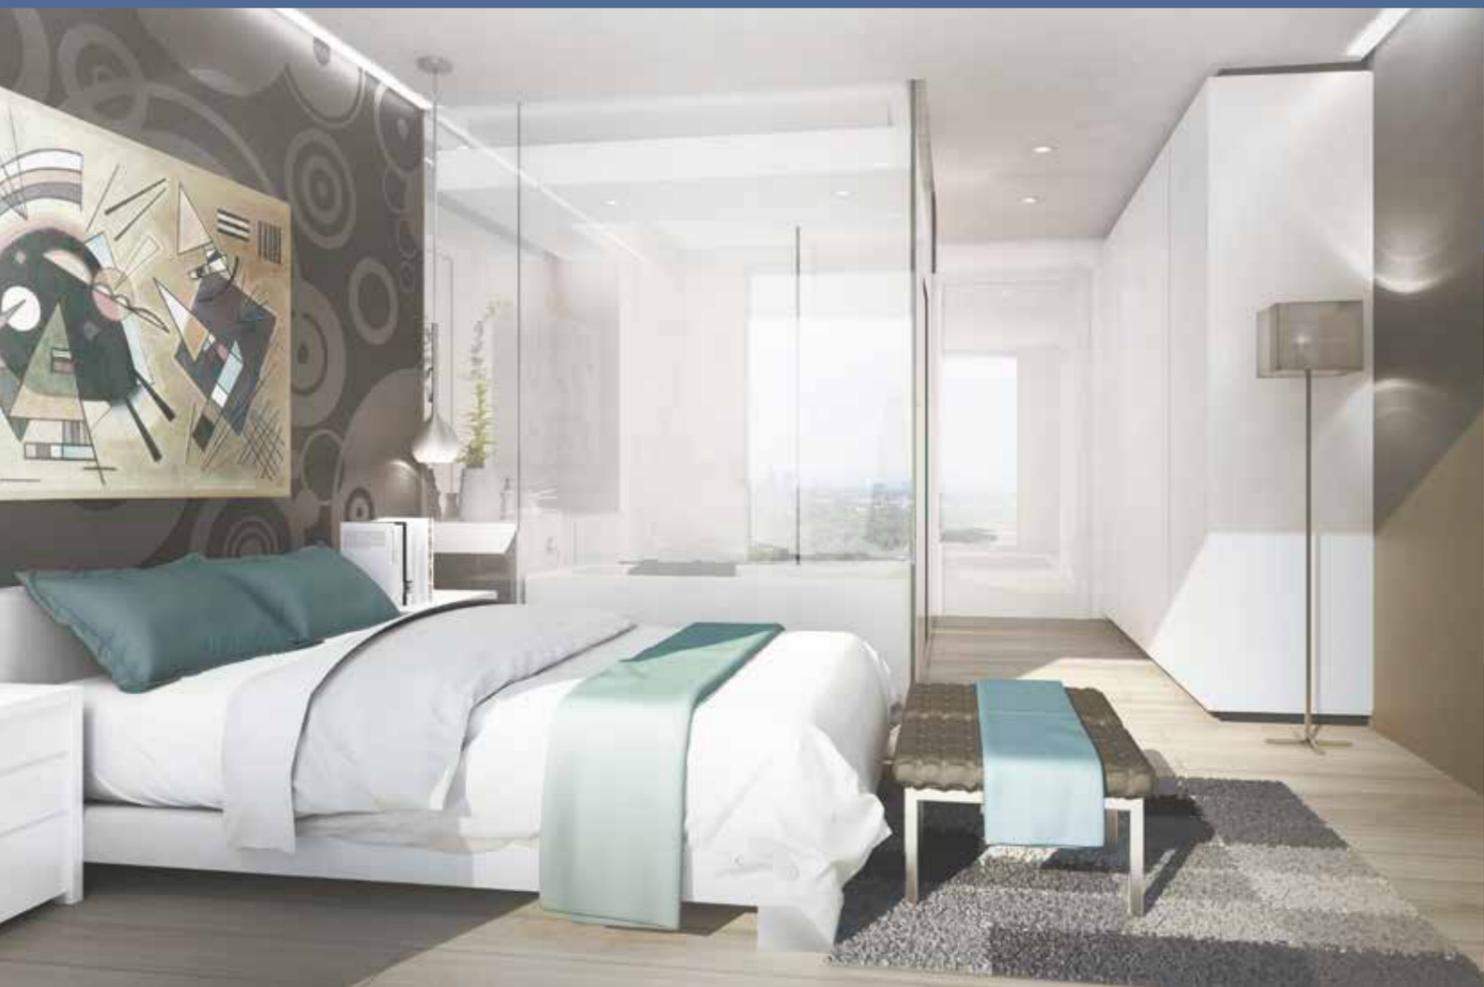

Proudly Developed by

“As a listed fund, Redefine is in the unique position as developer to offer innovative funding options for a limited period to the young pre-qualified investor who does not have a readily available deposit, but has the income (or surplus income) in hand to save. While a 10% deposit would normally be a threshold too high for this investor, the disciplined individual will have the opportunity to secure his or her purchase at current prices and be allowed to pay the deposit over a period while construction takes place.”

Josua van Tonder, Development Manager, Redefine Properties

The show unit is completed and ready to view so we would love to chat to you about the various options.
