ABOUT CRAFT HOMES

Craft Homes is a residential developer specializing in quality homes, from modern apartments to luxury, family sized homes. Our developments extend across Johannesburg and Pretoria to the Vaal River in the Free State.

Craft Homes is a private company and proudly part of the Abland Group of Companies. With 25 years of residential experience, we meet only the highest standards, knowing that Craft developments will be handed over from one generation to the next.

We understand that a house is much more than just four walls. It's a space that becomes part of everyone's lives that live in it, grow up or grow old. We put as much care into your biggest life investment, so that you can call it home.
